Sudachi Sorubē

Sudachi sorbet, shiso oil, cherry cream, freeze-dried cherries

The Japanese Pattern Goma 胡麻

Goma means sesame in Japanese. It is a traditional pattern inspired by small, scattered sesame seeds.

This pattern is often used on textiles, ceramics, and paper. It symbolizes simplicity, harmony, and natural beauty - a perfect balance between order and spontaneity, just like in Japanese aesthetics.

The Goma pattern is frequently seen in Japanese restaurants, both in interior design and decorative details that create an authentic atmosphere.
